

Australian Capital Territory

Critical

Incident Management

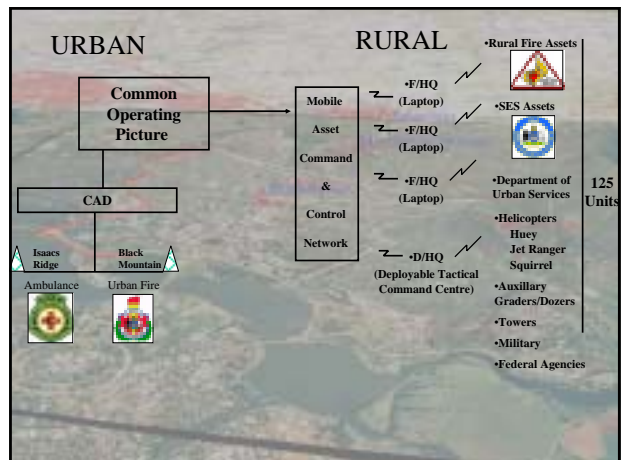

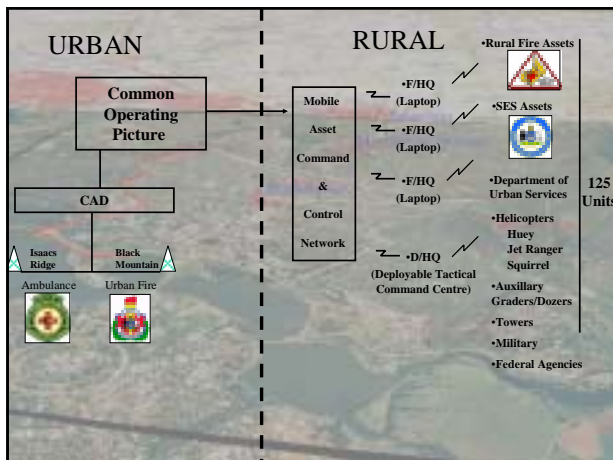

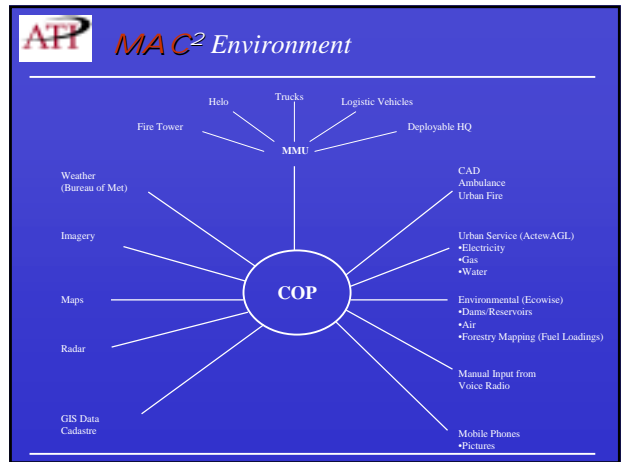

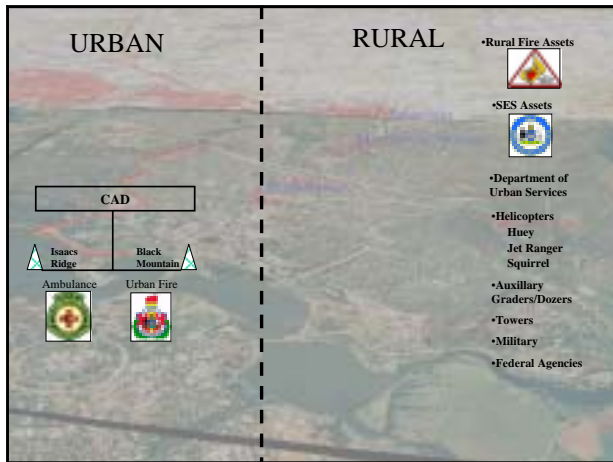

System

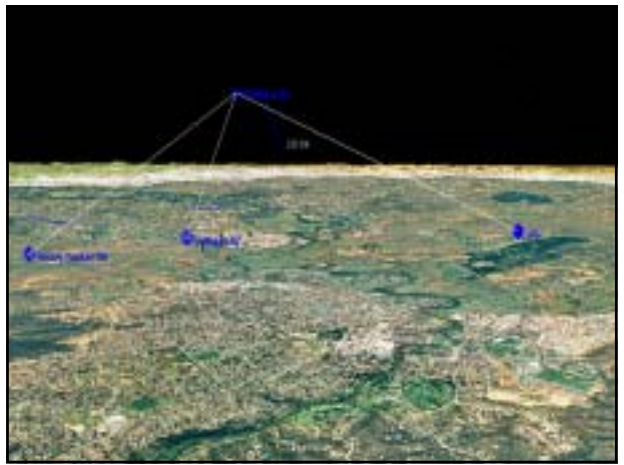

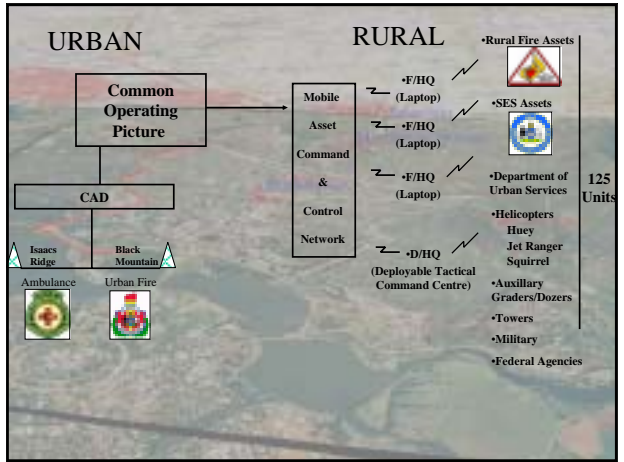

KEY CHALLENGES

1. Increase Command & Control Beyond The Boundaries of the Urban fringe and its fixed infrastructure
2. Integrate with Computer Aided Dispatch
3. Achieve Interoperability with Interstate, Military and Federal agencies
4. Provide the capability to the Incident Controllers in the Field

- OPERATIONAL CAPABILITY**
1. Access to all information available to the HQ
 2. "Real Time" knowledge
 3. Ability to Modify and Adjust the picture to reflect changes to a given incident immediately
 4. Perform Mission Planning in the Field and share it between other Incident controllers and HQ
 5. Perform all functions "In The Field" without dependency of "Fixed" infrastructure
